

## CLINICAL PROFILE

## Brandon Weinberg, PT, DPT

**Brandon Weinberg** is a dedicated professional who is committed to providing superior clinical care in a supportive and encouraging environment. He believes in seeing his patients as more than just the injury, but discovering what is truly meaningful to each person and promoting function and independence to the fullest extent. Brandon has seen notable success in the rehabilitation of orthopedic and sports conditions across the full spectrum, including postoperative cases such as total hip, knee and shoulder replacement, spinal fusion, rotator cuff repair, Achilles repair and ACL reconstruction. At the forefront of his practice, Brandon creates innovative programs that challenge, strengthen and restore, while empowering his patients to take an active role in the success of their rehabilitation journey.

### Education and Certifications

- **Doctor of Physical Therapy**  
*Drexel University - 2023*
- **Bachelor of Science – Biology**  
*Lehigh University - 2020*
- **Continuing Education** – Philadelphia Sports Medicine Conference; Shoulder Dysfunction – A Practical Approach to Examination and Treatment

**Brandon's Vision...**As a physical therapist, I utilize evidence-based practice to create individualized treatment plans that assist each of my patients with achieving their unique functional goals. I educate my patients about how "movement is medicine", as I focus on fostering a collaborative and encouraging environment that improves their quality of life.
